NATURE INDIA MEDIA FELLOWSHIP

Nature India partnered with the Wellcome Trust/DBT India Alliance and jointly launched the **India Science Media Fellowships 2019**. This fellowship provides science journalists the opportunity to strengthen their professional acumen and generate interest among them to look at issues from a scientific perspective.

The 2019 fellowships are open to Indian journalists interested in reporting on life sciences, specifically biomedicine, application-based or biological research and health. In addition the fellowship will provide five grants through a nation-wide call for applications.

NATURE INDIA SCIENCE COMMUNICATION WORKSHOPS

A series of one - two day workshops to equip young researchers and students with tools and strategies for effective communication of their ideas, experiments, and scientific results from a science communication perspective.

Workshop agenda includes:

- Science communication
- Presentation skills
- Writing a manuscript
- Writing grants
- CV & cover letter
- Effective press releases
- Alternate Science Careers - Science Journalism & Visualising Science

NATURE INDIA ABSTRACT BOOKS

Nature India works closely with conference teams in publishing proceedings which cover Conference Abstracts, Speakers Biographies, Institute Profiles, Sponsors Advertisements and a special Editorial by Nature India Editor.

This project of around 100 pages includes:

- Content management
- Project management
- Editorial by Nature India editorial team
- Copy-editing, proof reading, quality check
- Designing costs inclusive of cover design, desktop publishing work and layout
- Production inclusive of printing, adherence to paper specifications, quality of print output
- Promotion of the conference on Nature India

NATURE INDIA ANNUAL PRINT EDITION

The annual edition of *Nature India* highlights the most important and meaningful scientific articles published on the *Nature India* website during the past year. The yearly special issue is a compendium of science coverage in India as seen through the eyes of *Nature India*.

A must-have issue for anyone interested in India's science, R&D scene and the latest career and industry trends, the compendium has handpicked science news and features, research highlights, commentaries, policy features, career articles and interviews with some leading lights of Indian science.

These compendia are not just a showcase of the best stories in Indian science during the past year but also a historical account of science as it is happening in India. The annual print edition is a special event in the country's science calendar upholding *Nature India's* mission to provide readers the best and most thorough coverage of Indian science.

NATURE INDIA SPECIAL ISSUES

Our special issues are sponsored supplements that aim to stimulate interest and debate around a subject of interest to the sponsor, while satisfying the Nature Research editorial values and our readers' expectations. They are available in either print, online, or both. Most of our special issues focus on affairs pertaining to science and research in India and at the same time are of significance to the global scientific community.

NATURE INDIA CUSTOM ISSUES

Nature India Custom Issues offer a portfolio of print and online custom content publishing and communication solutions for organizations to tout products, accomplishments, and research to their desired audience.

Content can be tailored to meet your objectives.

Common content types include:

- **Research highlights:** Short, news-style articles of about 400 words, usually focused on a single piece of research. Ideal for showcasing high-impact research.
- **Feature article:** Longer article often around 1,000 words in length based on multiple research papers, or focusing on a specific team, facility or research area within your team.
- **Impact article:** Shorter article designed to demonstrate the social, economic or commercial impact of research.
